

Product Data Sheet

MONUMAT ENTRANCE MATTING

ALPHA BRUSH 1 (02-AB1)

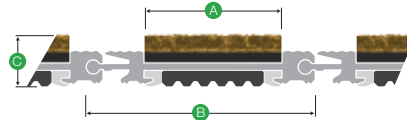

This profile utilises an aluminium tread rail with ball and socket hinge system for superior strength. The system comes complete with a 31mm course carpet insert and is rubber backed for quieter transition. This makes it an ideal profile for use in educational facilities, commercial buildings and retail outlets.

APPLICATION	Heavy duty - internal/external
SUPPORT CHASSIS	Anodised aluminium
TREAD SURFACE	Brush - Course Carpet, UV Stabilised
CONNECTION	Aluminium Interlocking hinge (ball and socket)
AVAILABLE COLOURS	Brush - 2

PROFILE

A	31mm
B	50mm
C	17mm

CHOOSE YOUR INSERT COLOUR

Brush

Brush is a synthetic fibre which is made to imitate natural Coir. The synthetic nature of the insert combined with rubber backing results in a highly durable product. Suitable for both internal and external applications. Ideal for locations that require a natural look and feel or Federation refurbishments.

Other colours available on request

COCO 141

BLACK 142

CHOOSE YOUR ALUMINIUM FINISH

Clear Anodised

A process for producing a translucent film of aluminum oxide which forms an integral part of the aluminum. This creates a very thin coating of immense hardness. Standard anodising is 15-20um (microns).

Black Anodised

Follows the same process as clear anodising but the aluminium is immersed into a tank full of dye which absorbs into the pores of the anodised coating until the depth of colour is obtained.

HOW TO SPECIFY

Copy the prewritten specification below and update all sections in brackets to create your project specification.

Description

Monumat Alpha-Brush 1 profile in (clear/black) anodised finish aluminium with (nominate insert colour) insert to be installed within (MF1235/RF1296) (clear/black) anodised aluminium perimeter frame.

Example - Typical Specification

Monumat Alpha-Brush 1 profile in clear anodised finish aluminium with charcoal insert to be installed within MF1235 clear anodised aluminium perimeter frame.
