

## Product Data Sheet

# MONUMAT ENTRANCE MATTING

### ALPHA BRUSH 2 (02-AB2)

This profile utilises an aluminium tread rail with a flexible rubber joiner. The rubber joiner can be punched with specially placed holes to assist in the drainage of the mat well area. The system comes complete with a 31mm course carpet insert. An ideal profile for use in educational facilities, commercial buildings and retail outlets where water drainage is a priority.

CONNECTION	PVC Joiner with interlocking hinge
AVAILABLE COLOURS	Brush - 2

#### PROFILE

A	31mm
B	50mm
C	17mm

#### CHOOSE YOUR INSERT COLOUR

##### Brush

Brush is a synthetic fibre which is made to imitate natural Coir. The synthetic nature of the insert combined with rubber backing results in a highly durable product. Suitable for both internal and external applications. Ideal for locations that require a natural look and feel or Federation refurbishments.

Other colours available on request

COCO 141

BLACK 142

#### CHOOSE YOUR ALUMINIUM FINISH

##### Clear Anodised

A process for producing a translucent film of aluminum oxide which forms an integral part of the aluminum. This creates a very thin coating of immense hardness. Standard anodising is 15-20um (microns).

##### Black Anodised

Follows the same process as clear anodising but the aluminium is immersed into a tank full of dye which absorbs into the pores of the anodised coating until the depth of colour is obtained.

#### HOW TO SPECIFY

Copy the prewritten specification below and update all sections in brackets to create your project specification.

##### Description

Monumat Alpha-Brush 2 profile in (clear/black) anodised finish aluminium with (nominate insert colour) insert to be installed within (MF1235/RF1296) (clear/black) anodised aluminium perimeter frame.

##### Example - Typical Specification

Monumat Alpha-Brush 2 profile in clear anodised finish aluminium with charcoal insert to be installed within MF1235 clear anodised aluminium perimeter frame.
