

## Product Data Sheet

# MONUMAT ENTRANCE MATTING

### ALPHA STEP 1 (02-AS1)

This profile utilises an aluminium tread rail with ball and socket hinge system for superior strength. The system comes complete with a 31mm carpet insert and is rubber backed for quieter transition. This makes it an ideal profile for use in educational facilities, commercial buildings and retail outlets.

#### SPECIFICATIONS

PRODUCT	<b>Alpha Step 1</b>

SUPPORT CHASSIS	Anodised aluminium
TREAD SURFACE	Step - Carpet, UV Stabilised, Marine grade
CONNECTION	Aluminium Interlocking hinge (ball and socket)
AVAILABLE COLOURS	Step - 8

#### PROFILE

A	31mm
B	50mm
C	12mm

#### CHOOSE YOUR INSERT COLOUR

##### Step

Marine grade commercial carpet insert specifically manufactured so it will not harbour mildew or rot whilst removing moisture, grit and grime from footwear. Rubber backed with a high degree of UV protection for heavy duty use and longevity of colour. Suitable for both internal and external applications. Ideal for locations with a large focus on aesthetic value.

Other colours available on request

#### CHOOSE YOUR ALUMINIUM FINISH

##### Clear Anodised

A process for producing a translucent film of aluminum oxide which forms an integral part of the aluminum. This creates a very thin coating of immense hardness. Standard anodising is 15-20um (microns).

##### Black Anodised

Follows the same process as clear anodising but the aluminium is immersed into a tank full of dye which absorbs into the pores of the anodised coating until the depth of colour is obtained.

#### HOW TO SPECIFY

Copy the prewritten specification below and update all sections in brackets to create your project specification.

##### Description

Monumat Alpha-Step 1 profile in (clear/black) anodised finish aluminium with (nominate insert colour) insert to be installed within (MF1235/RF1296) (clear/black) anodised aluminium perimeter frame.

##### Example - Typical Specification

Monumat Alpha-Step 1 profile in clear anodised finish aluminium with charcoal insert to be installed within MF1235 clear anodised aluminium perimeter frame.
