

## Product Data Sheet

# MONUMAT ENTRANCE MATTING

### MAXI BRUSH 2 (02-MB2)

This profile utilises an aluminium tread rail with flexible rubber joiner. Designed to retain 60mm course carpet insert which allows for a smoother crossing for wheeled traffic such as walking aids, health care beds and trolleys. The rubber joiner can be punched with holes at 60mm or 120mm centres to assist in the drainage of the mat well area. Ideal for healthcare facilities or areas with a high volume of wheeled traffic that requires particular attention to drainage.

#### SPECIFICATIONS

#### PROFILE

A	60mm
B	78mm
C	17mm

#### CHOOSE YOUR INSERT COLOUR

##### Brush

Brush is a synthetic fibre which is made to imitate natural Coir. The synthetic nature of the insert combined with rubber backing results in a highly durable product. Suitable for both internal and external applications. Ideal for locations that require a natural look and feel or Federation refurbishments.

Other colours available on request

COCO 141

BLACK 142

#### CHOOSE YOUR ALUMINIUM FINISH

##### Clear Anodised

A process for producing a translucent film of aluminum oxide which forms an integral part of the aluminum. This creates a very thin coating of immense hardness. Standard anodising is 15-20um (microns).

##### Black Anodised

Follows the same process as clear anodising but the aluminium is immersed into a tank full of dye which absorbs into the pores of the anodised coating until the depth of colour is obtained.

#### HOW TO SPECIFY

Copy the prewritten specification below and update all sections in brackets to create your project specification.

##### Description

Monumat Maxi-Brush 2 profile in (clear/black) anodised finish aluminium with (nominate insert colour) insert to be installed within (MF1235/RF1296) (clear/black) anodised aluminium perimeter frame.

##### Example - Typical Specification

Monumat Maxi-Brush 2 profile in clear anodised finish aluminium with charcoal insert to be installed within MF1235 clear anodised aluminium perimeter frame.
