

## Product Data Sheet

# MONUMAT ENTRANCE MATTING

### MAXI GRIP 1 (02-MG1)

This profile utilises an aluminium tread rail with ball and socket hinge system for superior strength. Designed to retain 60mm carborundum grit insert which allows for a smoother crossing of wheeled traffic such as walking aids, health care beds and trolleys. This profile is also rubber backed for a quieter transition. Ideal for healthcare facilities or areas with a high volume of wheeled traffic.

#### SPECIFICATIONS

PRODUCT	<b>Maxi Grip 1</b>

A	60mm
B	78mm
C	12mm

#### CHOOSE YOUR INSERT COLOUR

##### Grip

Grip is a combination of carborundum grit and epoxy creating a premium product that provides a safe, anti-slip finish. Ideal for locations where slip risk is high.

Other colours available on request

BLACK 122

GREY 123

BROWN 121

BLUE 126

GLOW 127

RED 128

YELLOW 129

#### CHOOSE YOUR ALUMINIUM FINISH

##### Clear Anodised

A process for producing a translucent film of aluminum oxide which forms an integral part of the aluminum. This creates a very thin coating of immense hardness. Standard anodising is 15-20um (microns).

##### Black Anodised

Follows the same process as clear anodising but the aluminium is immersed into a tank full of dye which absorbs into the pores of the anodised coating until the depth of colour is obtained.

#### HOW TO SPECIFY

Copy the prewritten specification below and update all sections in brackets to create your project specification.

##### Description

Monumat Maxi-Grip 1 profile in (clear/black) anodised finish aluminium with (nominate insert colour) insert to be installed within (MF1235/RF1296) (clear/black) anodised aluminium perimeter frame.

##### Example - Typical Specification

Monumat Maxi-Grip 1 profile in clear anodised finish aluminium with charcoal insert to be installed within MF1235 clear anodised aluminium perimeter frame.
